Section 1 Introduction

Section 1.1 Backstory

In the year 2075, fierce competition over dwindling resources has led to the breakout of a World War. The war spanned 2 years and left many countries in ruin. Daybreak City was one of the remaining few cities that survived the fierce elimination. The government of Daybreak City has grown corrupt and is only interested in power and wealth. Slavery and oppression were a common sight in Daybreak City. Ramon D. Ramirez, the CEO of the Eclipse Corporation, decided to take matters into his own hands. He rallied like-minded individuals to overthrow the government and was hailed as the hero of Daybreak City.

9 years later in the year 2084, the government has fallen and the Eclipse Corporation rules Daybreak City with an iron fist. There are no secrets, no privacy, everything is being monitored by the Eclipse Corporation. This sparked dissatisfaction amongst the populace giving rise to the Embers Resistance led by Lucas Frey.

Section 1.1.1 Eclipse

Since its founding, the resistance has continued being a thorn in the Eclipse Corporation side. In order to remove the Embers resistance once in for all, the Eclipse Corporation has begun to act in earnest.

Section 1.1.2 Embers

The Embers resistance has been created to overthrow the tyrannical rule of the Eclipse Corporation and return freedom to the people. To that end, they have continued to engage in guerrilla warfare with the Eclipse Corporation, attacking their stronghold, ambushing their military personnel, all while conserving their forces and recruiting new blood into the cause, biding their time before striking a heavy blow to the Eclipse Corporation.

Section 2 Campaign

The Day Break Campaign focuses around 3 scenarios that happen sequentially, with a story that may change depending on which side wins the previous scenarios. Players choose either The Eclipse Corporation or The Ember resistance, leading each side to either victory or defeat by playing against each other in the individual scenarios and determining the story of the game.

Section 2.1 Story

In a recent operation, the Embers Resistance has captured a high ranking executive working in the Eclipse Corporation. After a round of “question-and-answer”, it has come to their knowledge that the Eclipse Corporation has been developing a super-virus in secret for years. Lucas, the leader of the resistance, thought that if Eclipse were to complete the virus, it would be a threat to them and the general populace.

Section 2.2 Scenarios

Scenarios	Description	
Dirty Deeds	The Embers dispatch a team to retrieve a sample of the virus, will the Eclipse operatives be able to keep the Embers at bay.	
Problem Child	Embers Win	Eclipse Win
	Having Procured the virus, Eclipse operatives are dispatched to retrieve the virus and destroy the resistance	Having repelled the Embers, Eclipse operatives are dispatched to destroy the Ember base to set an example.
If You Want Blood	In light of the recent attacks, Eclipse has decided to sell off the virus before any news of the security breach comes to light, the Embers find out about the exchange and are determined to put a stop to it once and for all	

Section 2.3 Resolution

Section 2.3.1 Eclipse Win

Having wiped out the Embers Resistance and killing Lucas, Ramon successfully gained fundings from the various country leaders through the transaction of the virus. But Ramon’s plot runs deep, the country leaders do not realise that once they utilize the virus, it will allow Ramon to wrest control of their country away from them. This is a new dawn for the Eclipse Corporation.

Section 2.3.2 Embers Win

Having defeated the Eclipse Corporation and taking the life of Ramon. Lucas and his resistance succeeded in returning freedom to the populace. No longer will they be under the oppressive watch of the Eclipse. This is a new dawn for the Embers Resistance and for Day Break City.

Section 3 Scenario 1: Dirty Deeds

Section 3.1 Story

The Embers Resistance immediately rallied an assault team to head to the facility where the virus is being developed in order to procure the virus. Having found out the location where the Eclipse Corporation is developing the super-virus, Lucas ordered an attack on the facility. “Attack the facility and procure the super-virus, and its method of production, if you are unable to do so, destroy the facility along with the super-virus instead”.

Section 3.2 Scenario Setup

The super-virus being developed by Eclipse will be a contested objective for both sides. The objective token will be placed on the “objective” tile on the map.

Faction	Roles	Set-up
Eclipse	Defenders	Place the Eclipse operatives on the Eclipse spawn tiles as specified on the map
Embers	Attackers	Place Embers operatives on the Embers spawn tiles as specified on the map Designate an Embers operative to hold onto the bomb token

Section 3.3 Scenario Objectives

Once the game begins, players in each camp will work towards their respective objectives. Additionally, encounters may trigger during the scenario (refer to section 3.4).

Faction	Embers	Eclipse
Objective 1	Steal the virus (marked by objective token) from the Eclipse Facility and bring it to the exit tile as specified on the map	Protect the virus and prevent it from falling in Embers’ hands
Objective 2	Defeat all opposition forces	Defeat all opposition forces
Resolution	Achieving either of the objectives will result in a win for Embers	Failure in objective 1 will result in a loss for Eclipse. Success in objective 2 will result in a win for Eclipse.

Section 3.4 Encounters

Encounters are events that occur within the scenario after a certain number of turns. Each encounter has its own trigger, event and resolution as stated below.

Encounter	Trigger	Description
T.N.T	Occurs on the 5th turn	Embers decide if they can't get the virus they'll destroy it
Loot to thrill	Occurs on the 7th turn	A mystery item has been discovered in the area
Hot Package	Occurs on the 10th turn	Eclipse operatives have been given orders to retreat with the virus

Section 3.4.1 Encounter 1: T.N.T

Having determined that the chances of obtaining the virus is low, Lucas has decided to destroy the facility and the research done by Eclipse instead. A bomb has been sent in. If the bomb is successfully planted, the scenario will end in 5 turns.

Set up: Ember members decide prior to the scenario, who will be holding the bomb (only one player may hold the bomb). After 5 turns, the encounter begins. If the player holding the bomb is killed during or before the encounter, the encounter ends.

Faction	Embers	Eclipse
Objective 1	The player with the bomb is to move towards the designated detonation site (red tile) and plant the bomb in their possession (planting the bomb takes up 1 Action Point)	Eclipse operatives are to dispatch the Ember operative with the bomb before it is planted.
Objective 2	Players are to protect the bomb once planted for 2 turns	If the bomb has been planted, players have 2 turns to disarm the bomb (Disarming takes up 1 Action Point)
Resolution	Scenario ends in favour of Ember	Scenario continues

Section 3.4.2 Encounter 2: Loot To Thrill

Amongst the chaos, an enhancement mod has been discovered in the area, obtaining the enhancement mod would allow an operative to increase a single derived stat by one.

Set up: Specified within the map are 6 possible locations for the spawn of the enhancement mod, designated by purple tiles. Upon the trigger of the encounter, the two teams do a d6 dice roll to determine the spawn location.

$$\text{Spawn Location} = (D6 + D6) / 2$$

Enhancement mod obtained: The player that obtained the enhancement mod may choose 1 of their derived stats to increase by 1 for the duration of the scenario.

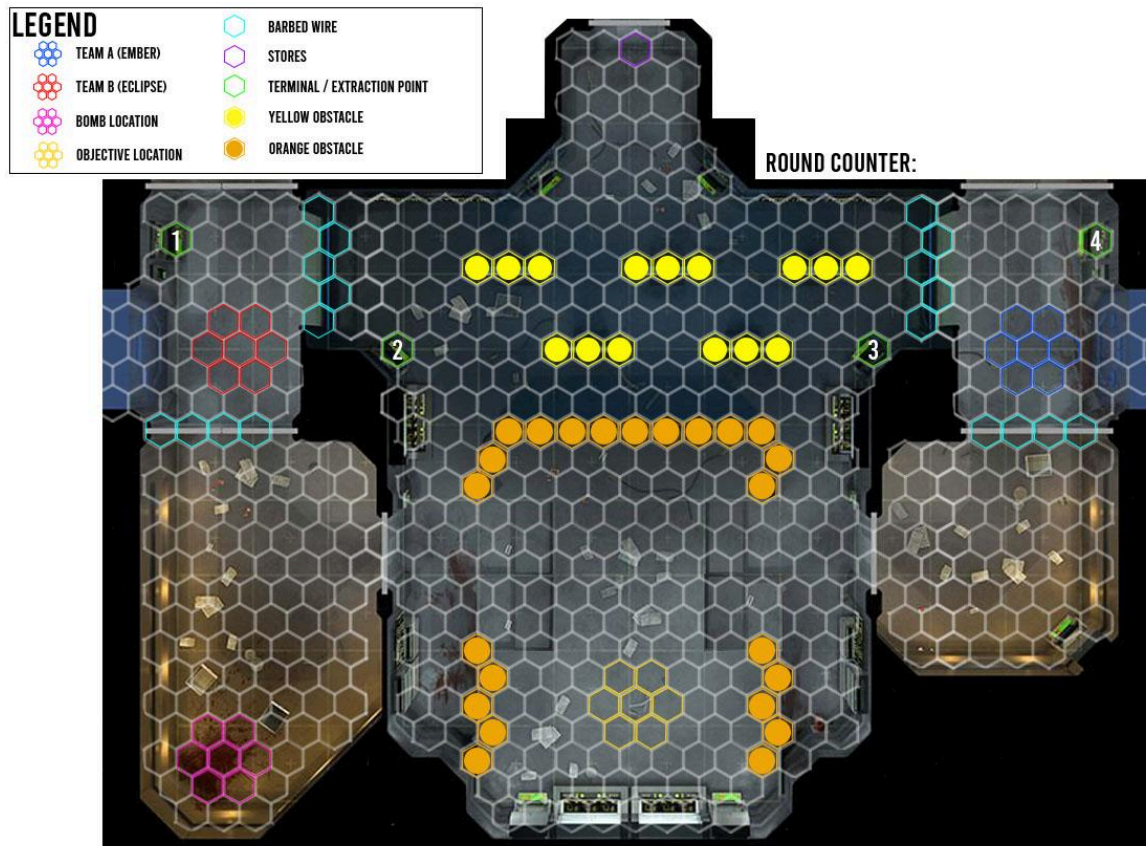

Resolution: After 5 turns, if the enhancement mod has not been obtained, it will be destroyed.

Section 3.4.3 Encounter 3: Hot Package

After getting a report on the attack of the facility, Ramon has sent in a transport team to evacuate the remaining operatives as well as the virus.

Objective: Once triggered, Eclipse operatives may win the scenario by having a player carry the virus to the evacuation zone, designated by the green tile. Eclipse Operatives within the evacuation zone are not able to attack or be attacked unless they step out of the evacuation zone.

Section 3.5 Scenario 1 Map

Section 4 Scenario 2: Problem Child

Section 4.1 Branching paths

The details of scenario 2 are determined by the side who achieved victory in scenario 1.

If the Eclipse Corporation has achieved victory in scenario 1: **proceed onto Section 4.2** for scenario 2.

If the Embers Resistance has achieved victory in scenario 1: **proceed onto Section 4.3** for scenario 2.

Section 4.2 Eclipse Version

Section 4.2.1 Story

The Eclipse Corporation has successfully repelled the Embers resistance and prevented the super-virus from entering Embers' hands. However, being angered by the attack from the Embers, Ramon sent an assault team to destroy the Embers' base.

Section 4.2.2 Scenario Setup

In this scenario, Eclipse will play the roles of the attackers, while Embers will play the role of the defenders.

Faction	Roles	Set-up
Eclipse	Attackers	Place Eclipse operatives on the Eclipse spawn tiles as specified on the map Designate an Eclipse operative to hold onto the bomb token
Embers	Defenders	Place Embers operatives on the Embers spawn tiles as specified on the map

Section 4.2.4 Scenario Objectives

Eclipse's objective is to plant 3 bombs inside of Embers' base. The scenario will end once either side achieves their objectives

Faction	Embers	Eclipse
Objective 1	Stop Eclipse operatives from planting the bombs by defeating the operatives carrying the bombs.	The player with the bombs is to plant the 3 bombs at the designated detonation sites (red tile) (planting the bomb takes up 1 Action Point)
Objective 2	In the event that the bombs have been planted, players will have 2 turns to defuse the bombs. (Disarming takes up 1 Action Poin)	Once a bomb has been planted, protect the bomb for 2 turns, if the bombs have not been defused, it will detonate.
Objective 3	Defeat all Eclipse operatives	Defeat all Embers operatives
Resolution	Embers will achieve victory if 2 out of 3 bombs have been successfully defused, or if all Eclipse Operatives have been defeated.	Eclipse will achieve victory if 2 out of 3 bombs have been successfully detonated, or if all Embers Operatives have been defeated.

Section 4.3 Embers Version

Section 4.3.1 Story

Having successfully procured the super-virus, Lucas, the leader of the Embers Resistance had his best scientists reverse-engineer the super-virus, in order to come up with a vaccine. On the other hand, Ramon, the leader of the Eclipse Corporation has ordered an assault on the facility where the virus is being researched. Complete the production of the vaccine, and safely escort it out of the facility.

Section 4.3.2 Scenario Setup

In this scenario, Eclipse will play the roles of the attackers, while Embers will play the role of the defenders.

Faction	Roles	Set-up
Eclipse	Attackers	Place Eclipse operatives on the Eclipse spawn tiles as specified on the map Designate an Eclipse operative to hold onto the bomb token
Embers	Defenders	Place Embers operatives on the Embers spawn tiles as specified on the map

Section 4.3.4 Scenario Objectives

In this scenario, the Embers Resistance will have to wait for the vaccine to be completed. Thereafter, the vaccine token will appear on the 'vaccine tile' as specified on the map. The vaccine token can be picked up by any player from both camps (Picking up the vaccine will require 1 action point). The scenario will end as soon as either side achieves their objectives.

Faction	Embers	Eclipse
Objective 1	Survive for 5 turns while waiting for the production of the vaccine to be finished.	Prevent Embers Operatives from escaping the facility.
Objective 2	Bring the completed vaccine along with all surviving operatives to the exit tile as specified on the map.	Defeat all Embers Operatives.
Resolution	Completion of both objective 1 and 2 will result in a victory for the Embers Resistance.	Failure of the 1st objective will result in a loss while success of the 2nd objective will result in a win for the Eclipse Corporation.

Section 5 Scenario 3: If You Want Blood

Section 5.1 Story

Embers' Leader, Lucas, discovered that Ramon will be meeting various country leaders to barter the virus for funds to aid in Eclipse's projects. Lucas, along with his resistance, decided to attack the Headquarters of Eclipse Corporation in order to stop the transaction from taking place and take down Eclipse once and for all.

Section 5.2 Scenario Setup

In this scenario, Embers will be the attackers while Eclipse will be the defenders.

Faction	Roles	Set-up
Eclipse	Defenders	Place Eclipse Operatives on the tiles specified as Eclipse spawn tiles on the map
Embers	Attackers	Place Embers Operatives on the tiles specified as Embers spawn tiles on the map

Section 5.3 Scenario Objectives

This scenario is an all-out battle between the two forces. The first to defeat the opponent's forces wins.

Faction	Embers	Eclipse
Objective 1	Defeat all Eclipse Operatives	Defeat all Embers Operatives
Resolution	Victory for Embers occurs when objective 1 is achieved	Victory for Eclipse occurs when objective 1 is achieved

Appendix**Changelog 1.1**

- Added Scenario 1: Dirty Deeds
- Add Encounter 1: TNT
- Add Encounter 2: Loot to Thrill
- Add Encounter 3: Hot Package

Changelog 1.2

- Added Scenario 2: Problem Child
- Added Scenario 3: If you want blood

Changelog 1.3

- Updated Scenario 2: Problem Child
 - Added Branching Paths
 - Eclipse Path
 - Embers Path
- Updated Scenario 3: If you want blood
 - Story of scenario 3 changed to an all-out final battle

Changelog 1.4

- Added Introduction Section
 - Shifted Introduction from campaign to this section
- Updated Campaign Section
 - Added story section to explain campaigns inciting incident
 - Updated Scenarios section to clarify scenarios within the campaign
 - Added Resolution Section with ending of both factions
- Updated Scenario 1 to clarify the scenario and make it easier to read
 - Added Story section
 - Added Set up section
 - Added Objectives section
 - Added Encounters section
 - Added Encounter trigger and brief description
 - Added Set up and objective/resolution to clarify each encounters
 - Encounter 1 given additional bomb item at the start of the scenario to Ember faction
- Updated Scenario 2 to clarify the scenario and make it easier to read
 - Added Story section for Ember and Eclipse paths
 - Added Set up section for Ember and Eclipse paths
 - Eclipse path
 - Added a bomb item that can be interacted with

- Embers path
 - Added a 'vaccine' item to can be interacted with
 - Added Objectives section for Ember and Eclipse paths
- Updated Scenario 3 to clarify the scenario and make it easier to read
 - Added Story section
 - Added Set up section
 - Added Objectives section
