The Reborn of Memories

Welcome to “The Reborn of Memories”, where you are delving into the realms of imagination and creating vivid memories that can fill the gaps in a person’s fading recollections. In this heartfelt journey, you will meet Oli, an adult whose memories are slipping away.

Oli, once vibrant and full of life, now finds herself caught in the disorienting fog of fading recollections. She yearns to reclaim her forgotten past, to reconnect with people, places and experiences that shaped her identity. But fear not, for within the game lies the power of you, players to rewrite the story of Oli’s past, to breathe life into forgotten memories and to craft new memories that will bring joy, healing and growth.

Now, let the game begin. You hold the power to heal, to ignite hope and to shape the destiny of Oli’s recollections. Together, let us embark on a captivating journey, where forgotten memories are found and new memories are woven into the tapestry of her existence.

How To Play

At the start of turn,

1. Exploration (Compulsory Action)

1. **Setting the Environment:** The Game Master (GM) introduces the setting and sets the scene.
1. **Writing Your Memories Goals:** Do write down at least 3 memories goals after the GM introduces the setting/
2. **Player’s Exploration:** Each player can explore around and search for objects which will be important to regain Oli’s memories.
3. **Exploration Resolution Roll:** Each player will have to perform a resolution roll to determine whether they manage to find objects. (roll D20 against GM)
4. **GM Response:** The GM inform the players if they have found anything from the Exploration Resolution Roll (Eg. You found a seashell with an engraving - initials that match those on a locket found earlier.)

2. Regaining Memories

1. **Selected Character Stat:** GM will decide when it is time for players to regain their memories with Oli. GM will state the specific character stats that the players should use to do so. (Eg. Memory Influence Stat -> This means that all of the players will use only Memory Influence Stats to perform memory resolution.)
2. **Regaining Memories:** When players attempt to help Oli regain her memories, they have to make use of the objects they found during their search/exploration to form that memory with Oli.
3. **Memory Resolution:** All players will roll a D20 + stats modifier, only the player with the **highest number rolled** will be able to regain his/her memory with Oli.

Note: Player will go through player’s inquiry until GM decides that it is time for players to regain their memories with Oli. GM will have to take note when the players have collected enough items for memories to be regained.

What is TTRPG?

Tabletop role-playing game is a collaborative storytelling experience where players delve into the fading recollections of Oli, an adult longing to reclaim her forgotten past. Through collaborative storytelling and imagination, players take on the roles of characters who have the power to rewrite Oli's story, breathe life into lost memories, and create new ones. Guided by rules and mechanics, players work together to uncover hidden truths. This heartfelt journey invites players to heal, ignite hope, and shape the destiny of Oli's recollections, as forgotten memories are found and new ones are woven into the tapestry of her existence.

What do you need?

A group of 4/5 people

At least 2 six sided dice (d6)

At least 5 twenty-sided dice (d20)

1 character sheet for each player

Writing materials such as pen, pencils etc

Character Creation

1. Select your **preferred characters**.

Family Members (Father, Mother, Siblings)

Friends (Classmate, Best Friend, Childhood Friend, Bully)

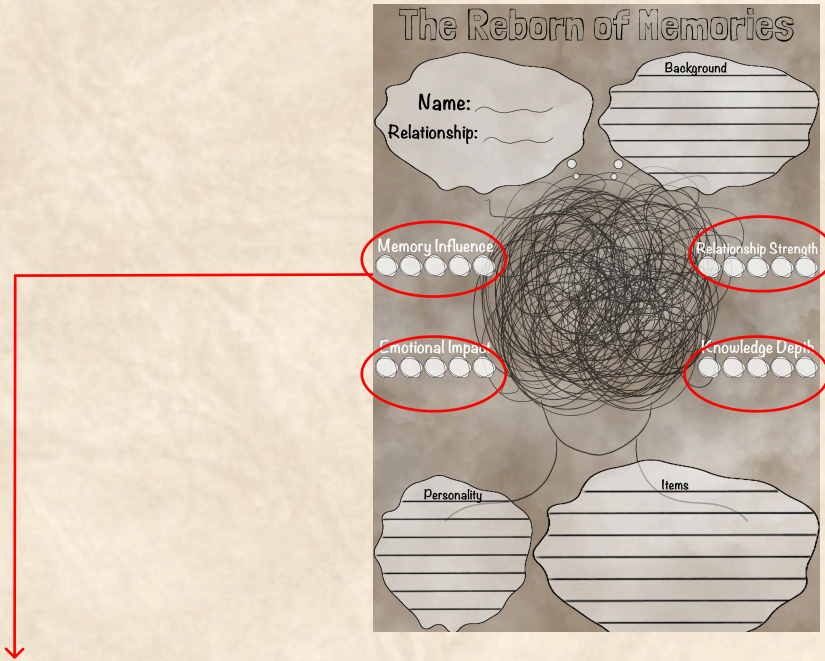

Lover, Ex-es

Mentor

Character Creation (Cont.)

2. **Attribute Allocation:** You begin by allocating attribute points to your Character Stats. You are allowed to allocate any points within 1 to 5 per stats. The number of points allocated will determine how many dice you can roll for each of the respective stats. **You can only allocate to a max of 12 points.** (Eg. Memory Influence + Relationship Strength + Emotional Impact + Knowledge Depth ≤ 12)

Memory Influence

How influential your character presence in shaping Olivia's memories.

Emotional Impact

The emotional impact your character has on Olivia/Olivia's memories.

Relationship Strength

The strength of your relationship with Olivia. (How close you are with Olivia)

Knowledge Depth

How much your character knows about Olivia's life and memories.

Character Creation (Cont.)

Feel free to create a personality for your character!

The Reborn of Memories

Name: _____
Relationship: _____

Background

Memory Influence: ● ● ● ● ● ● ● ●
Emotional Impact: ● ● ● ● ● ● ● ●
Relationship Strength: ● ● ● ● ● ● ● ●
Knowledge Depth: ● ● ● ● ● ● ● ●

Personality

Items

Choose any items to aid your exploration from the Item Sheet List.

Objects found during exploration during the gameplay can be written here too.

At the start of each setting, do write down at least 3 memories goals you would like to achieve.

The Reborn of Memories

GOALS

NOTES

Character Creation (Cont.)

3. **Character Conceptualization:** You will further develop your character's appearance, personality and backstory.
4. **Finalize Character:** If you have not done so, give your character a name! Now your character is complete!

Players' Actions

1. Explore for objects which will be necessary to regain your memory with Oli.
2. Regain memories.

'Just Say No' Card

'Just Say No' Card will allow you to **stop another player from regaining a memory**. Once the 'Just Say No' card is used against you, your memory mentioned will be forfeited.

You will **only** be given **3 'Just Say No'** card for the entire gameplay.

To activate your 'Just Say No' card,

'JUST SAY NO' CARD RESOLUTION ROLL (SUCCESS)

You will have to roll 2D6 and the **sum of the 2D6 rolled**

>=

2 to 6

Note: If you fail the 2D6 dice roll, you can still keep your 'Just Say No' card and try again in the next turn or whenever you feel like stopping another player from regaining a memory. However, once your 'Just Say No' card is activated, it will be taken out of play.

Exploring for Objects

To regain your memories with Oli, you will have to explore around the different settings and look for objects that will help you to do so. **However, there will be no repetitions of objects, once a particular object is found by a player, it will no longer be available for other players.**

For example, you found a photo album and a necklace during your search. You can regain a memory with Oli saying that it was a birthday gift during Oli's 12th birthday. You have the freedom to create/regain any memories with Oli using the objects that you found.

However, it may not be as easy as it seems to find objects. You will have to roll a D20 against the GM to know if you have succeeded.

EXPLORATION RESOLUTION ROLL (SUCCESS)

D20 rolled by player

>=

D20 rolled by GM

Regaining Memories

With the objects that you have found during exploration, you can now regain your memories with Oli! **All players will roll a D20 and ONLY the player with the highest roll** will be able to regain his/her memory with Oli for that particular round.

In each round, all players roll a D20 dice, and then add their stat modifier to the roll to determine their final score. The player with the highest final score gets the opportunity to share the memory they wish to regain.

MEMORY RESOLUTION

D20 rolled by player

+

STATS MODIFIER

Stats used to regain memory in each round will be chosen by GM.

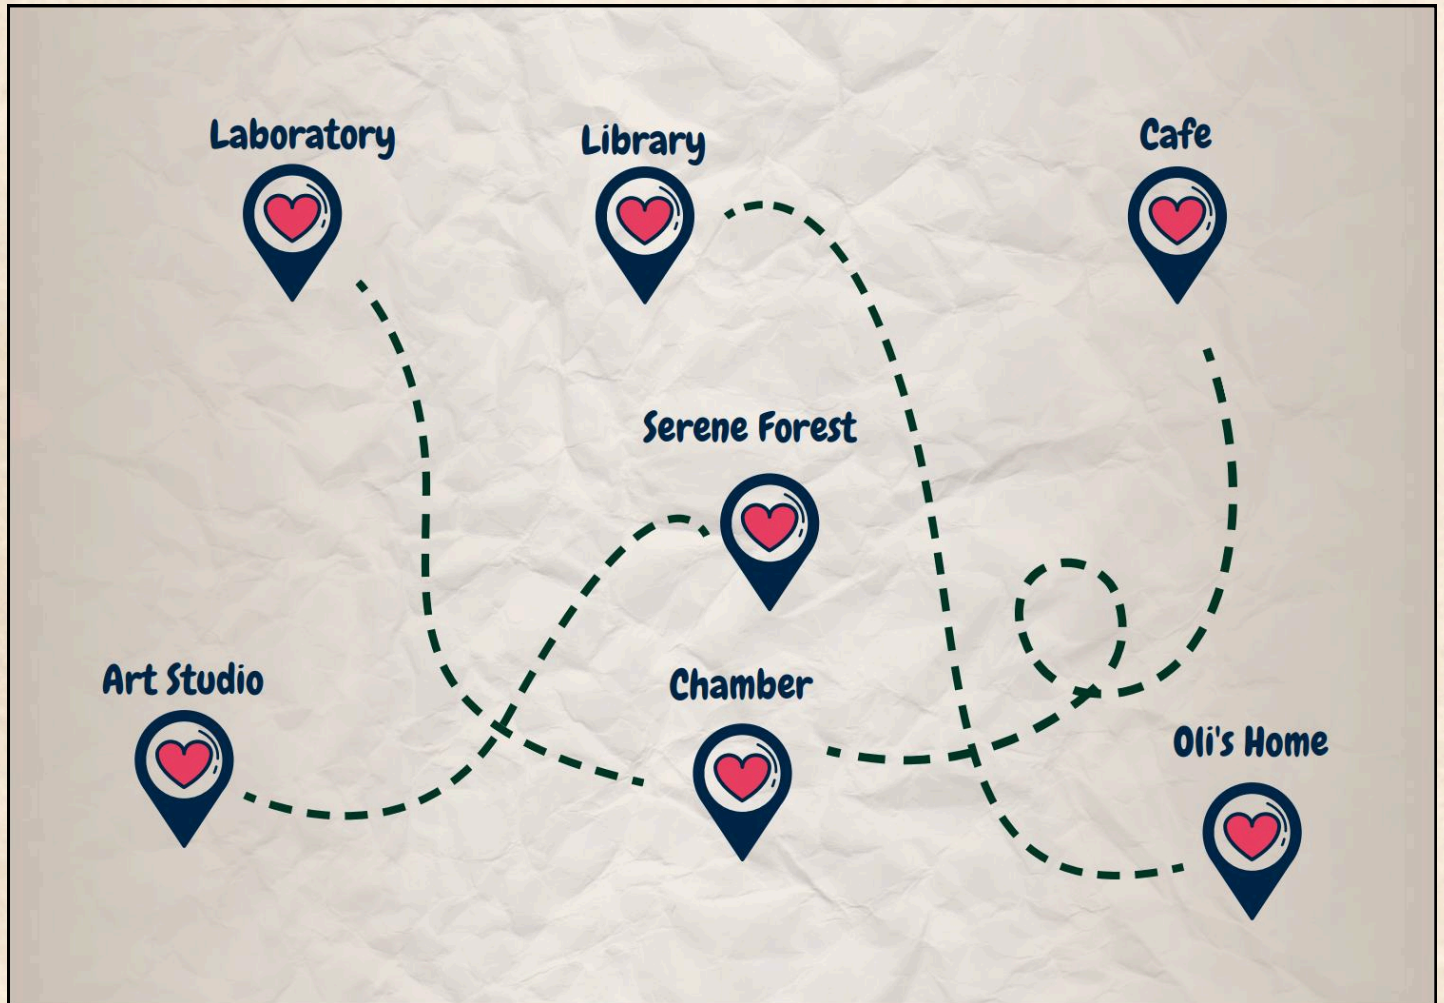

Items Sheet

You are able to select any of them items below to aid your exploration during the gameplay. There is no limit to how many items you can choose!

 Binocular	 Compass
 Flashlight	 Hammer
 Hairbrush	 Key
 Knife	 Ladder
